

# Navigator™ Valve Controller

## Navigator Controller

Style 9315

The smart Navigator from Akron Brass offers reliability, accuracy and ease of use in a lightweight compact housing to optimize pump panel space that is so critical with today's fire apparatus. No more over sized control heads and bulky add on gauges to consume valuable pump panel space!

Everything is in one compact intelligent unit designed to identify the intended use:

Need a Valve Controller? -This is it!

Need a Valve Controller with Pressure Meter? -This is it!

Need a Valve Controller, Pressure Meter and Flow Meter? -This is it!

Need a Flow Meter/Pressure Meter? -This is it!

It will do all this and more!

Need an Auxiliary Controller? Use the same unit to control the valve - with the added benefit of providing Pressure and/or Flow when required!

Now with visual position indication, a new graduated scale identifies the valve position. Not just Open or Closed, or somewhere in between, but 10 separate bars showing the valve position.

- Plug and Play
- Easy connection to valve, pressure and/or flow sensors
- No added plumbing, no gears, no linkage, no hassle
- Technically advanced solid-state electronics
- Protected against EMI (Electro Magnetic Interference)
- Programmable Auto Open
- 12 and 24V
- Field programmable units of measure (GPM or LPM, PSI or kPa)
- Meets all aspects of NFPA 1901
- 4 1/4" square face
- Easy pump panel mounting
- Retrofits to existing apparatus
- 5 year warranty

### Standard Kit Configuration:

- Navigator
- Flow Sensor
- Pressure Sensor
- (2) 10' Cables
- 10' Wiring Harness

### Other configurations include:

- Valve operation with pressure
- Valve operation with flow
- Pressure and flow only
